ASTANA

licensed by
Messe Frankfurt Exhibition GmbH

General Partner of the Exhibition Automechanika Astana 2025

Shell is the number one lubricants supplier for the 18th consecutive year, delivering quality lubricants to consumers in over 100 countries. We bring world-class technological insights to our products, offering the best formulations and solutions for your business needs.

We are excited to showcase at Automechanika Astana our Automotive and On-Highway Solutions, including Shell Helix. Shell Helix is a premium range of engine oils designed to deliver ultimate engine performance and protection. Shell offers solutions that meet the demands of modern engines and driving conditions. We would be delighted to understand your requirements and explore how we can support you and your customers.

We are committed to providing tailored solutions that meet your specific needs. Whether it's optimizing your lubrication strategy, enhancing equipment performance, or reducing operational costs, our team of experts is here to help. Let's work together to unlock new opportunities and ensure your business thrives.

LLP "Eurasian Machinery" is the official macro distributor of Shell lubricants in the Republic of Kazakhstan and Central Asia. To date, the company has a wide network of representatives and distributors in Kazakhstan, Kyrgyzstan, Uzbekistan, and Mongolia. The presence of its own offices and warehouse facilities with a reserve of more than 1 million liters of lubricants, along with a well-developed logistics structure, makes our company one of the leaders in the supply of lubricants, ranging from the largest industrial enterprises located in remote corners of our country to personal vehicles of end consumers. More than 150 employees, who possess technical knowledge and high qualifications, are involved in the implementation and subsequent technical support of the global Shell brand. Thanks to our resources and many years of experience in ensuring uninterrupted supply of lubricants, we are always ready to provide integrated solutions that optimize overall operational costs and improve business productivity.

We offer a wide range of lubricants:

- Motor oils
- Transmission oils
- Hydraulic oils
- Greases
- Gas engine oils
- Industrial transmission oils
- Compressor oils, and more.

By using technical services such as Shell LubeAnalyst, Shell LubeAdvisor, and Shell LubeCoach, along with products made using unique technology, our clients can be confident in the reliable operation of their equipment and the prosperity of their business. A key aspect of LLP "Eurasian Machinery" is building long-term partnerships, which is made possible by the continuous and stable operation of our clients' equipment and machinery, including leading companies in the mining, oil and gas, construction, and other industries. Together, everything is possible! From reliable equipment operation to a stable business!

A-Tech Group Kazakhstan Diesel Technic Group

Country: Kazakhstan
Address: Kazakhstan, Almaty city, Zhetysu district, Suyunbay Avenue,
143A
Telephone: 87472100010
E-mail: a-techgroup@outlook.com
Web: <http://www.groups.kz/>

The Diesel Technic Group is one of the largest suppliers of automotive parts and accessories. In addition to the headquarters in Germany, a global network of subsidiaries with service and logistics centres and trained, authorised distribution partners, ensures local support and reliable spare parts supply for workshop customers in more than 150 countries.

Action Auto Agency

Country: Malaysia
Address: 30, Jalan Segambut Pusat, Segambut, 51200 Kuala Lumpur,
Wilayah Persekutuan Kuala Lumpur
Telephone: +60173396636
E-mail: actionbluechem@gmail.com
Web: <https://actiongroup.com.my/>

Action Auto Agency — Your Professional Supplier of Automotive Chemicals

At this exhibition, we are showcasing and selling:

1. Full Range of Automotive Maintenance Chemicals: Covering engine maintenance, fuel system cleaning, air conditioning system care, and more.
2. Professional-Grade Body Care Products: Including car wash solutions, coating agents, polishing compounds, and detailing sprays for superior paint protection.
3. High-Performance Oils & Additives: Various high-quality lubricants, fuel additives, and coolants to enhance vehicle performance and extend service life.

Whether you are an auto repair shop, detailing center, or distributor, we provide high-quality chemical solutions for your business. Welcome to our booth for discussions and cooperation!

AJ «UZAUTO MOTORS POWERTRAIN»

Country: Uzbekistan
Address: Республика Узбекистан, город Ташкент, Сергелийский район, МСГ Кохна Кумарик, улица Ташкентское Кольцевое шоссе, дом 164.
Telephone: +998712806400
E-mail: info@umpt.uz
Web: Umpt.uz

UzAuto Motors Powertrain manufactures second-generation B-DOHC (Double Overhead Camshaft) gasoline and bi-fuel engines, as well as turbocharged and naturally aspirated CSS (Cylinder Set Strategy) Prime engines. The company was previously known as GM Powertrain Uzbekistan.

The company produces second-generation B-DOHC gasoline and bi-fuel engines, along with CSS Prime turbocharged and naturally aspirated engines designed to deliver an optimal balance of performance and fuel efficiency for the Uzbekistan market. Engines are available in 1.2L and 1.5L displacement options and are used in the Onix, Tracker, and Cobalt models.

UzAuto Motors Powertrain also specializes in manufacturing key engine components, including crankshafts, cylinder blocks, and cylinder heads, which form an integral part of the plant's production process.

Founded in 1997, AUTOPROFI is a leading supplier of automotive refinishing materials, technologies, and equipment in the Republic of Kazakhstan. We specialize in providing advanced solutions for automotive repair shops, offering our customers a full range of products and services necessary for high-quality vehicle body repair and painting.

Our company's primary goal is to provide customers with high-tech and innovative solutions that improve the efficiency of their paint and body shops. We are proud that our products and technologies help auto repair shops implement advanced methods, increase productivity, and reduce costs.

AUTOPROFI Partner Program

We offer a comprehensive partnership program aimed at developing our clients' businesses. This program includes consultations on implementing the latest body repair technologies, training courses for specialists, and support in optimizing business processes. Thanks to our solutions, auto repair shops can significantly improve the quality of their services, reduce repair times, and increase profitability.

We partner with global brands and provide the highest-quality products that have stood the test of time and are successfully used in workshops around the world. Our product range includes:

Materials for body preparation and painting;
Innovative paints and coatings;
Professional painting systems and equipment;
Tools and consumables for bodywork;
Safety equipment for auto repair shop workers.
Auto Body Repair Technologies and Equipment

AUTOPROFI focuses on implementing modern technologies that enable auto repair shops to work faster and more efficiently. We offer the latest automated systems for painting and drying vehicles, as well as auto body repair equipment that minimizes downtime and increases production capacity.

We strive to help our partners implement technologies that reduce costs and repair time. Using our products and equipment, your specialists can achieve precise and long-lasting results, ensuring a high level of customer satisfaction.

Support and Training

Customer training and support are important aspects of our business. We conduct training and master classes that help auto repair shops quickly master new technologies and begin successfully implementing them in their work. Our team of professionals is always ready to provide consulting assistance and offer solutions suitable for your business.

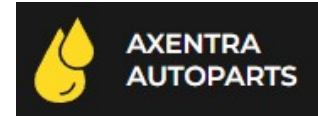

Advantages of partnering with AUTOPROFI

- Almost 30 years of experience in the Kazakhstan market.
- A wide range of products and equipment for auto body repair.
- Comprehensive solutions for effective business management.
- Support and training for specialists.
- Official partnerships with leading global brands.

We understand how important it is for our clients to maintain a high level of service quality to remain competitive in the market. Our goal is to provide auto repair shops with the best materials and tools to help achieve impeccable results and strengthen their reputation as a reliable and professional partner.

E-mail: sale@brissfilter.com
Web: <https://brissfilter.kz/>

LLP "Brissol" with the trademark Brissfilter™ is the first Kazakhstan manufacturer of filter elements for domestic and imported equipment since 2008. Our company offers a program to replace expensive and imported air, oil and fuel filter elements. Introducing new equipment and mechanisms, developing domestic production while supporting the Kazakhstani information structure with the help of competitive prices and quality, we displace foreign, often counterfeit goods. LLP "Brissol" carries out deliveries to the central region for Russian cars of the KamAZ, MAZ, VAZ, GAZ brands, and the widespread today, Chinese special-purpose vehicles of the companies XCMG, Shantui, Luigong, Heli, Shaanxi, Howo, Nord Benz, Camc, Faw, Cummins. The quality of our filters is comparable to that of expensive European brands, but they differ significantly in price. As we expand our supply and expand our market share, our product range is growing, and we are constantly updating our product catalog! We can manufacture products of any complexity and volume.

Web: kainar.kz

Kainar-AKB manufactures batteries for passenger and commercial vehicles, locomotives, agricultural machinery, and the oil and gas sector. The plant's production capacity is 3 million batteries per year.

More than 60% of its products are exported to neighboring countries.

The plant operates a full production cycle, from manufacturing components to assembling finished batteries. This allows the company to minimize production costs and offer prices below the market average.

At every stage of production, the company applies the international quality management system ISO 9001:2001 and the technical standard TS 16949:2001. Therefore, all products comply with the following standards:

European Standard BS TN 50342-2001

Japanese Standard JIS D 5301

Kainar-AKB not only manufactures batteries, but also safely recycles used batteries by separating them into components such as lead and plastic.

The products are marketed under the brands KAINAR, BARS, NOMAD, UNIKUM, and VOZHAK.

Kainar-AKB is included in the Register of Kazakhstan Manufacturers of the Samruk-Kazyna holding.

The company "Avtohtamp" LLC has been specializing in the production of spare parts for trucks and trailed vehicles since 2007.

We are constantly increasing the range of our products.

Suppliers of raw materials are only trusted manufacturers of metal and blanks (castings, forgings), including KamAZ PJSC, which guarantees high quality of finished products.

Having accumulated extensive experience in the production of spare parts for domestic cars, we began to develop a similar range of foreign production, so that it would be economically feasible for a potential customer to place orders at our company.

With extensive experience in the auto parts market, we know which market niches we can confidently compete in with domestic and foreign (including Chinese) manufacturers, and we successfully replace them.

Ningbo Xiangxing Technology Co., Ltd.

Country: China
Address: No.1 Dongjing Road, Xiangbao District,
Telephone: 0086-15869370716
E-mail: rickyq@xhwheel.com
Web: www.xhwheel.com

"Our company was founded in 2003. After more than 20 years of growth and improvement, our company has accumulated to the position of the current industry leader. At present, the company has more than ten automated assembly lines, more than 80 employees, and the production capacity is leading in the domestic industry. In terms of transportation, the company is one hour's drive from Ningbo Port and half an hour's drive from the airport, with convenient transportation and complete supporting logistics.

Our company passed the TS16949 quality system certification at the beginning of its establishment. For many years, we have been implementing strict on-site management standards according to this system: from self inspection of each production step to patrol inspection of the entire assembly line, we have equipped full-time quality management personnel to control the quality of the whole production process in real time. At the same time, the company has also introduced various advanced testing instruments to constantly control the product parameters.

Our company has 12 practical patents, 1 invention patent and 2 intellectual property trademarks. At the same time, the company also pays attention to talent reserve and has established school enterprise cooperation with Ningbo City Vocational and Technical College and other two universities. At present, the company has more than 30 employees with college degree or above.

At present, we have established supporting cooperation relationships with domestic main engine manufacturers such as Guangzhou Fudi and Hangzhou Chunfeng. In addition, the company's overseas markets cover five continents and has been committed to diversified marketing solutions for aftermarket spare parts.

In addition to establishing Alibaba, Amazon and other online marketing platforms, the company also participates in various professional auto parts exhibitions at home and abroad every year.

E-mail: market@ravenol.su
Web: <https://shop.ravenol.kz/>

RAVENOL is a German automotive lubricants brand owned by Ravensberger Schmierstoffvertrieb GmbH. Founded in 1946, the brand specializes in the production of motor oils, transmission fluids, and technical lubricants for passenger cars, trucks, and racing vehicles. RAVENOL is known for its high product quality and active involvement in motorsports.

Key Facts

- Founded: 1946, Werther, Germany
 - Founder: Hans Tronje
 - Headquarters: Werther, North Rhine-Westphalia, Germany
 - Main Products: Motor and transmission oils, coolants
 - Parent Company: Ravensberger Schmierstoffvertrieb GmbH
- History and Development**
The company began operations after World War II as a manufacturer of industrial lubricants. In the 1950s and 1960s, RAVENOL focused on automotive oils, and by the 1990s, it was exporting to dozens of countries. In the 21st century, the brand established itself as a technologically advanced manufacturer of premium lubricants, actively introducing synthetic and multi-stage formulas.
- Technologies and Products**
The RAVENOL product range includes motor oils for gasoline and diesel engines, automatic transmission fluids (ATF), lubricants, brake fluids, and coolants. Products are ACEA and API certified and have received approvals from automakers including Volkswagen, BMW, Mercedes-Benz, Ford, and others. Proprietary technologies such as USVO® and CleanSynto® are designed to reduce friction and protect engines under extreme loads.
- Motorsports**
RAVENOL actively collaborates with racing teams and series, including the DTM, 24 Hours Nürburgring, and the FIA and Formula 4 championships. The brand's lubricants are used by both professional teams and amateur motorsports, reinforcing its reputation for high technology and reliability.

Current Position

Today, RAVENOL supplies products to more than 90 countries, boasting state-of-the-art production facilities and a research and development laboratory. The brand remains an independent manufacturer focused on innovation, environmental friendliness, and precise compliance with automotive industry requirements.

Wanli Tire Corporation Limited

Country: China
Address: NO.3 Wanli Road, Aotou Town, Conghua Country
Telephone: +8613928872186
E-mail: cfcheng@wanlitire.cn
Web: <https://www.wanlitire.cn>

Wanli Tire Corporation Limited (hereinafter referred to as "Wanli Tire") was established in December 2004. It is a second-level enterprise directly under Guangzhou Industrial Investment Holdings Group Co., Ltd., and a professional tire manufacturer integrating R&D, production, sales, and service. Its predecessor was Guangzhou South China Rubber Tire Co., Ltd., founded in 1988 — one of the pioneers in China's tire industry. In 1990, the company took the lead in introducing the complete radial tire technology from Firestone, USA, becoming the first domestic enterprise to master this technology. After more than 30 years of deep cultivation, the company has grown into the largest tire enterprise in South China. According to the 2025 Global Tire 75 ranking published by Tire Business, the company ranks 41st globally; according to the 2025 China Tire Enterprise Ranking published by China Rubber, it ranks 18th nationwide.

Wanli Tire is located at No. 3 Wanli Road, Aotou Town, Conghua District, Guangzhou City, Guangdong Province, covering an area of 1,120 mu. It has one General Research Institute and two Research Branches (Conghua Branch and Hefei Branch), with three production bases in Conghua, Hefei, and Cambodia (Phase II of the Cambodia base is under construction), as well as a provincial-level manufacturing innovation center — Guangdong Advanced Elastomer Innovation Center Co., Ltd. The company currently employs more than 5,000 staff and has an annual production capacity of 36 million units of PCR tires and 3.2 million units of TBR tires.

Karmin-Avto has been operating in the truck parts and accessories market for over 20 years, building mutually beneficial and trusting relationships with parts stores, service stations, transport companies, and commercial vehicle manufacturers.

We specialize in products from known Italian, Turkish, and Chinese brands, ensuring competitive prices thanks to direct contracts with manufacturers. In 2025, Karmin-Avto launched its own production of toolboxes and mudguards under the SKARB brand. In 2026, we began producing landing gear and air tanks for semi-trailers—all with a quality guarantee and fast delivery to Kazakhstan.

Our reputation as a reliable partner allows us to quickly fulfill orders of any size. If you service, repair, or manufacture commercial vehicles, or sell parts or accessories for trucks and semi-trailers, visit our booth. See the latest 2026 products, get advice from managers, and discuss terms with company management.
