SINOPEC

This year, Shell became the main partner of the exhibition — undoubtedly, this is a unique opportunity to be at the heart of a key automotive event in Kazakhstan. For Eurasian Machinery, the official macro distributor of Shell, participation in the exhibition was a great opportunity to greet our clients, partners, and all those who share our commitment to quality, innovation, and the development of the industry.

BUSINESS PROGRAM

The Automechanika Astana exhibition is traditionally accompanied by an extensive series of business events, including thematic seminars and presentations, partnership sessions and master classes. The events are held by international experts and are unique in their scope and opportunities to acquire skills and knowledge.

Automechanika Live Stage

Automechanika Astana launched for the first time an open discussion platform for discussing current issues in the auto business, holding presentations and quizzes. Here, leading industry experts and media personalities presented analytical reviews, shared practical experience and discussed key trends in the development of the automotive industry.

Automechanika Live Stage is the central platform of the exhibition, uniting the professional community and creating unique opportunities for exchanging knowledge, establishing business contacts and shaping the development vector of the industry.

PARTICIPANTS' REVIEWS

For our team, participating in Automechanika Astana was an important event. We had the opportunity to present key solutions in the automotive components sector, strengthen business ties, and exchange experiences with the professional community.

We sincerely thank the management of Automechanika for maintaining high exhibition standards and creating a platform where business truly develops. Your contribution to the industry's growth is invaluable.

Khodjaev Abdulkuddus
General Director of TruckMotors

We are pleased to participate in the Automechanika Astana exhibition every year, and we thank the organizers for providing an excellent platform for communication, experience exchange, and establishing new partnerships!

Participation allows us not only to remind our audience of who we are but also to receive valuable feedback from potential clients and industry colleagues. It also helps us establish contacts with new suppliers, opening additional opportunities for expanding our product range and improving service.

Kim Maria
Marketing Director at Sillan.kz

Regular participation in the exhibition contributes to the growth of brand recognition for Briss Filter, ensures a steady flow of clients, and an annual increase in sales. We observe steady development both of the exhibition itself and of our company.

Vladimir Filatov
Representative of Briss Filter Factory (Kazakhstan)

SEE YOU NEXT YEAR!
