ASTANA

licensed by
Messe Frankfurt Exhibition GmbH

General Partner of the Exhibition Automechanika Astana 2025

Shell is the number one lubricants supplier for the 18th consecutive year, delivering quality lubricants to consumers in over 100 countries. We bring world-class technological insights to our products, offering the best formulations and solutions for your business needs.

We are excited to showcase at Automechanika Astana our Automotive and On-Highway Solutions, including Shell Helix. Shell Helix is a premium range of engine oils designed to deliver ultimate engine performance and protection. Shell offers solutions that meet the demands of modern engines and driving conditions. We would be delighted to understand your requirements and explore how we can support you and your customers.

We are committed to providing tailored solutions that meet your specific needs. Whether it's optimizing your lubrication strategy, enhancing equipment performance, or reducing operational costs, our team of experts is here to help. Let's work together to unlock new opportunities and ensure your business thrives.

LLP "Eurasian Machinery" is the official macro distributor of Shell lubricants in the Republic of Kazakhstan and Central Asia. To date, the company has a wide network of representatives and distributors in Kazakhstan, Kyrgyzstan, Uzbekistan, and Mongolia. The presence of its own offices and warehouse facilities with a reserve of more than 1 million liters of lubricants, along with a well-developed logistics structure, makes our company one of the leaders in the supply of lubricants, ranging from the largest industrial enterprises located in remote corners of our country to personal vehicles of end consumers. More than 150 employees, who possess technical knowledge and high qualifications, are involved in the implementation and subsequent technical support of the global Shell brand. Thanks to our resources and many years of experience in ensuring uninterrupted supply of lubricants, we are always ready to provide integrated solutions that optimize overall operational costs and improve business productivity.

We offer a wide range of lubricants:

- Motor oils
- Transmission oils
- Hydraulic oils
- Greases
- Gas engine oils
- Industrial transmission oils
- Compressor oils, and more.

By using technical services such as Shell LubeAnalyst, Shell LubeAdvisor, and Shell LubeCoach, along with products made using unique technology, our clients can be confident in the reliable operation of their equipment and the prosperity of their business. A key aspect of LLP "Eurasian Machinery" is building long-term partnerships, which is made possible by the continuous and stable operation of our clients' equipment and machinery, including leading companies in the mining, oil and gas, construction, and other industries. Together, everything is possible! From reliable equipment operation to a stable business!

A-Tech Group

Country: Kazakhstan

Web:
stand: H15

A747CARGO is a leading transport and logistics company specializing in cargo transportation from China to Kazakhstan. We provide a full cycle of delivery services, offering our clients reliable, fast, and cost-effective logistics solutions.

Our Services

We offer a comprehensive range of services in China and Kazakhstan, including:

- Product sourcing and purchasing – assistance in selecting manufacturers, negotiating deals, and controlling transactions.
- Supplier payments – secure financial transactions with Chinese partners.
- Cargo consolidation and storage – warehouses in China and Kazakhstan for customer convenience.
- Goods inspection – quality control before shipment.
- Door-to-door delivery – minimizing risks and reducing transportation time.

Why Choose Us?

- ✓ Affordable prices – optimized logistics routes allow us to offer the best rates.
- ✓ Own warehouses in China and Kazakhstan – speeding up order processing.
- ✓ Safety and reliability – control at every stage of transportation.
- ✓ Flexibility – we adapt to customer needs and provide customized solutions.

We help your business receive goods from China quickly, safely, and profitably!

Aeson Power Kazakhstan

Country: Australia
Address: Almaty Baizakov str 222
Telephone: 87471484388
E-mail: aesonpowerkz@gmail.com
Web: <https://www.aesonpower.com.au/>
stand: G15.1

Aeson Power is an Australian company that provides world-leading battery products and system solutions for multi-field applications. Aeson Power is a partner company of XuPai Group. Xupai Group was established in 1995, with over 28 years of abundant experience in product development and manufacturing in the fields of power batteries, energy storage, and UPS batteries.

AIKOS LLP

Country: Kazakhstan
Address: Semey Kutzhanova street, 23
Telephone: 7705798797
E-mail: market15@aikos.kz
Web: aikos.kz
stand: B08

AST Brand – Russian Brand of Truck and Special Equipment Components

The AST brand is a Russian brand specializing in components for trucks and special machinery.

AST products are manufactured in China and Russia at large, world-class factories that utilize cutting-edge technologies and the latest European-level advanced equipment.

The foundation of AST production is research, testing, and the use of innovative technologies. AST selects only the best suppliers of materials and components for its manufacturing lines.

AST's product range includes over 800 SKUs, covering:

Starters
Maintenance filters
Brake levers
Alternators
Repair kits
U-bolts
Crankshafts
Brake valves
Clutch covers
Flywheels and more

AST products are compatible with truck brands such as HOWO, SITRAK, SHACMAN, FAW, DONG FENG, HONGYAN, FOTON, ISUZU, and others.

The AST brand is available in three product lines:

AST Smart – Standard spare parts

AST Silver – Upgraded spare parts (primarily from OEM manufacturers)

AST Ultra – Hi-End level spare parts with the most innovative solutions

Advantages of the AST Brand

AST products not only meet OEM requirements but exceed original parts in many aspects.

AST's competitive pricing allows for successful tenders, while quality assurance ensures customer loyalty.

AST's assortment is designed to meet the real needs of businesses operating heavy-duty machinery.

All products undergo quality control in internationally accredited testing laboratories.

Independent laboratories carefully measure test results to ensure compliance with international standards.

Testing includes cold resistance, abrasive wear, pressure, and temperature fluctuations.

Additionally, double packaging of heavy products minimizes damage risk during transportation.

ETONNER, a fragrance brand under Guangzhou Centurybegin Development Co., Ltd., originates from France and draws inspiration from the iris, blending French elegance with modern aesthetics. The products, designed by French designer Valérie Normain, feature premium essences from Grasse's EP Group and are fully certified by IFRA, delivering a luxurious olfactory experience for high-end car interiors. The core product line includes liquid perfume diffusers, pendant essential oils, air vent diffusers, solid perfumes, smart fragrance machines, and home fragrances, offering 60-90 days of lasting scent and compatibility with luxury car interiors such as Mercedes-Benz and BMW.

ETONNER boasts a robust supply chain system with a monthly production capacity in the millions, adhering to international brand quality standards. It supports OEM/ODM deep customization, providing exclusive services such as fragrance development and packaging design. The brand also offers high-resolution visual asset libraries, scenario-based display solutions, and e-commerce operational support to facilitate channel expansion. ETONNER is now seeking partners with resources in automotive accessories, shopping malls, and e-commerce channels to join as distributors and share in the global automotive fragrance market, which is growing at an annual rate of 23%.

stand: B11

The company ""Kainar-AKB"" manufactures batteries for passenger and commercial vehicles, locomotives, agricultural machinery, and the oil and gas sector. The plant's production capacity is 3 million batteries per year.

More than 60% of the products are exported to countries in the near abroad.

The plant implements a full production cycle – from manufacturing components to assembling finished batteries. This allows the company to minimize production costs and offer prices lower than the market average.

At every stage of production, the International Quality Control System ISO 9001:2001 and the technical standard TS 16949:2001 are applied. Therefore, all products comply with the following standards:

European Standard BS TN 50342-2001

Japanese Standard JIS D 5301

""Kainar-AKB"" not only manufactures batteries but also safely recycles expired batteries, separating them into components such as lead and plastic.

The products are sold under the brands KAINAR, BARS, NOMAD, UNIKUM, and ""VOZHAK.""

The company ""Kainar-AKB"" is listed in the Register of Kazakhstan manufacturers of the Samruk-Kazyna holding.

We are a professional manufacturer of auto parts in China for more than ten years. Our main products include wheel hubs and brake drums for truck and trailer, construction machinery parts and other OEM castings. Founded in 2007, the company now covers an area of more than 120,000 square meters, has about 300 employees and 459 sets of equipment. Its annual production capacity is 30,000 Tons (1200000 pcs). Our main customers are HJ, Guangzhou TND, Foshan L1, Shandong Baolong, Shandong jinsheng and other well-known domestic vehicle axle manufacturers. We also manufacture parts for XCMG, Dongfeng Dena, Anhui Valin and so on. The products are exported to Middle East, Europe and the United States. Adhering to the concept of "Making the best wheel hub in China", we take the lead in adopting advanced Iron based coated sand technology in casting, Resin sand casting technology, and the production process follows ISO/TS16949 quality management system. The casting qualification rate has reached the leading level in domestic market.
